Soft, double-molded handles are designed for a **no-slip ergonomic grip**

A. Cook's Knife
The most popular multi-purpose knife in the kitchen. Use for coarse or fine chopping, dicing and mincing of any kind of food. The deep handle grip is designed to protect the knuckles.

B. Santoku Knife
Designed for precision tasks like mincing and fine slicing. The blade has shallow oval-shaped depressions along the cutting edge to help prevent foods from adhering to the blade.

C. Bread Slicer
The scalloped edge is excellent for slicing loaves of bread without crushing the loaf. Also ideal for roasts, ham and other foods with a firm, crusty exterior and soft interior.

D. Boning Knife
The curved feature gives added flexibility for separating skin and bones from fish or raw meat.

E. Paring Knife
The most versatile of knives for slicing, slivering, peeling and mincing.

F. Offset Sandwich Knife
Offset handle prevents knuckles from hitting cutting surface.

G. Duo-Edge Roast Slicer
Hollow-edge blade reduces drag, resulting in a paper-thin and an incredibly smooth cut. The tiny grooves also allow food to slide off the knife without sticking.

don SOFGRIP® Professional Cutlery

- Chromium carbon steel alloy blades are honed razor sharp
- Dishwasher safe

Scales – What’s the Difference?

A properly calibrated and well-functioning scale can help your establishment reduce operating costs as well as waste, but knowing what type of scale you need is just as important. These quick tips will help you decide which one is right for you.

Receiving Scales versus Portion Scales

Receiving scales are designed to weigh your inventory in bulk when it arrives, ensuring your establishment is receiving the right amount of product at the correct price.

Portion scales help you manage your inventory more efficiently by ensuring that portion sizes are consistent when serving your customers.

Digital or Mechanical?

While digital and mechanical scales provide a high degree of accuracy, both still have their own distinct advantages.

Digital scales are easy to read and can have a tare feature that allows you to reset the scale to zero as ingredients or vessels are added.

Mechanical scales are lightweight and portable while having the additional advantage of not requiring a power source.

Don Mechanical Scales

- Stainless steel spring and corrosion-resistant weighing mechanism for durability, long-term accuracy and strength
- Internal stop mechanism extends scale life
- Angled dial with bold graphics improves reading accuracy and ease

DON#	Cap'y	Qty

Chafing Dishes Hot Box Beverage Urns

CHAFING FUEL SAFETY TIPS

ALWAYS

- ALWAYS** use **CAUTION** when handling **OPEN FLAME** products
- ALWAYS** use a blunt object, such as a spoon, to pry off the lid
- ALWAYS** cup hand over lid when opening can
- ALWAYS** remove excess gel from lid if it is being used as a regulator
- ALWAYS** wash fuel residue from hands
- ALWAYS** place the can securely underneath the chafing dish or beverage urn before lighting
- ALWAYS** use a long handled match or butane lighter to light cans
- ALWAYS** use a can cap, snuffer paddle, regulator or saucer to extinguish flame
- ALWAYS** wait until can is cool before touching

NEVER

- NEVER** use a sharp knife to pry off lid
- NEVER** use a lit can to light another can
- NEVER** carry lit cans
- NEVER** carry chafing dishes or beverage urns with lit cans
- NEVER** touch cans while still hot
- NEVER** allow decor, loose clothing, napkins or tablecloths near flame
- NEVER** allow hair to fall near flame
- NEVER** use hands to extinguish flame
- NEVER** blow out flame to extinguish

Increased Hygiene Expectations

Customers, Employees and Guests expect more

80%

say they expect public restrooms to provide a safe hygienic environment to a higher extent now than before COVID-19.

The following percentage of survey respondents agree they expect increased hygiene in public spaces such as:

Facilities can improve hygiene with consumer preferred products

68%

of people surveyed wish more facilities offered paper hand towels as an alternative to air dryers.

This is because people perceive paper hand towels as more hygienic to the user (74%), are safer to use (41%) and do not spread viruses and bacteria in the air (40%).

6 in 10

people would feel safer visiting crowded public spaces with more hand hygiene stations due to the pandemic.

DON Perforated Roll Towels
