Improve Patient Satisfaction and Foodservice Operational Efficiency

DON and Dinx offer complete meal delivery solutions which allow operators to achieve maximum efficiency and improved patient satisfaction within hospitals, long-term care facilities and senior living communities alike.

It's no secret that hospital reimbursement rates are directly related to patient satisfaction – food quality, food temperature, and meal presentation. Patients are more likely to eat and enjoy a well-presented meal, whether on a reusable or disposable traytop. Utilizing high quality, temperature holding solutions also greatly reduce the risk of foodborne illness and food dissatisfaction.

It's also no secret that operational costs are on the rise. Using the right Healthcare Foodservice equipment is the first step towards reducing operational costs and achieving meal delivery process improvements - From labor savings to food waste reduction to speed of delivery. Simple improvements in process and equipment not only reduce operational costs but will improve overall patient satisfaction scoring.

High Heat Disposable Dishware

A variety of high temperature dishware for retherm or other heated cart systems

- Adds a unique convenience to your retherm system while reducing cost
- Disposable plates and domes are ideal for areas where china dishes cannot be used, access to warewashing is limited or equipment downtime
- Convenient sizing dishes have a low profile of 2¾" and below
- Perfect fit 9" disposable plate and dome fit standard induction bases
- Upscale look more sleek and heat durable than foam take-out containers
- Natural colored dishes are made with natural additives, reducing plastic by 45%

Disposable Tray

Earth-Friendly Food Service

- Makes meal delivery safe, easy and efficient
- Natural sugar cane material is biodegradable and TUV compostable certified
- Disposable and designed for single-use meal delivery and ideal for times when dishwashing equipment is down
- Strong and durable enough to be used as stand-alone trays in meal delivery carts
- Molded channels reduce plate and beverage slippage
- Easily holds full traytop set up
- Recommended 5 lb. weight limit
- Tray can support itself during transport; no support tray needed
- Use with Dinex TVL, TQ Economy (ICT), TQ and TQ Supreme carts
- Perfect for healthcare, schools, universities and correctional facilities
- Strong enough for use with meal delivery carts without any additional tray support
- Meets emergency-preparedness requirements

Easy Data Management

The Comark Cloud receives and stores all of the temperature and humidity data from all of your devices. The dashboard will allow you to view historical records for analysis and reporting and will also make the task of continuously monitoring your workplace environment easier, by allowing you to set alerts 24 hours a day, 7 days a week for any parameters that fall out of range.

Comark RF300 automates temperature monitoring of walk-ins and reach-ins. Ensure products are kept at correct levels for quality assurance and food safety. Real time alerts from the Cloud via email or SMS from power outages can save inventory and dollars.
